Nestled among the dunes of Laguna Beach on the quiet, west-end of Panama City Beach lays Pineapple Villas. Laguna Beach is renowned for its lack of high-rise condominiums and hotels and the quieter time of Florida's beaches remains to be one of the areas quiet treasures.

Pineapple Villas is the sort of beach resort that travelers to Florida dream about—a small, lush tropical gem that is still relatively unknown. There is a peaceful harmony to be discovered within each of Pineapple Villa's newly renovated eight-

teen unique one and two-bedroom villas and

beach house. Pineapple Villas is an eclectic blending of old

Florida style, Caribbean hospitality and contemporary Feng Shui (literally, "wind, water"). Clean, open, airy with a simple tasteful décor.

Every unit at Pineapple Villas is oriented towards the tantalizing sea breeze and views of the picturesque waters of the Gulf of Mexico. Each villa features art deco style tile floors, hand-selected regional furnishings and complemented with one-of-a-kind hand-painted tropical murals by local artisan Peggy Adams. Many

of Pineapple's villas have terraces or balconies and all offer access to the beachside deck with swimming pool and relaxing hot tub.

Kissed by the warm, inviting waters of the Gulf of Mexico, Pineapple Villa's large private beach is the perfect place to pull your beach chairs together and watch the day unfold. Every day is unique and the sights and sounds of our tropical retreat will linger in your mind long after your trip is over. When your day on the sand comes to an end, retreat back to the Pineapple beach deck for a cool beverage and memorable sunset and prepare for a quiet evening in or an evening of local dining and entertainment!

Pineapple Villas, a quaint retreat for visitors seeking a new experience off the beaten path!
